OUR REFRESHING WATERS PROGRAM

The Refreshing Waters Program®

We recognize that everyone has strengths, gifts, and something valuable to contribute to their community. The Refreshing Waters® Program is built on the understanding that those struggling with dementia-related illness still have a lot to say—we just need to know how to listen.

ELDERGROW INDOOR GARDEN AND HORTICULTURAL THERAPY

The Landing at Stone Oak residents, families & staff love their Eldergrow gardens! The indoor gardens provide residents with new purpose and sensory stimulation. The gardens are handcrafted by disabled veterans and other adults living with disabilities. The Therapeutic Sensory Garden is tailored for memory care residents who benefit from the therapeutic programming with Eldergrow's Educator.

FAMILY TESTIMONIALS Garcia Family

"My mother has been cared for by the staff with the upmost compassion, patience and the best medical knowledge at The Landing at Stone Oak. We appreciate all the staff for their friendliness and especially for the manner in which the facility is taken care of with regards to cleanliness and environment."

Employee Darlene James

"I am Darlene James, a dietary aide at The Landing at Stone Oak. It's hard to believe I have been at The Landing for 5 1/2 years, but time flies when you are having fun! My responsibility is to ensure proper set-up of our dining rooms, practice safe sanitary food handling for food preparation, and maintain sanitary conditions by implementing and practicing the "Clean As You Go" method to keep areas clean and safe. At the Landing, we work to serve our residents and strive to make each experience beautiful. I love the family

culture and team environment I work in! "I love my job because I get the opportunity to represent a company who is an innovative leader in the senior industry. The Franklin Park name speaks for itself."

The Landing at Stone Oak's very own "NOTE BOOK" LOVE STORY - Alice and Carroll

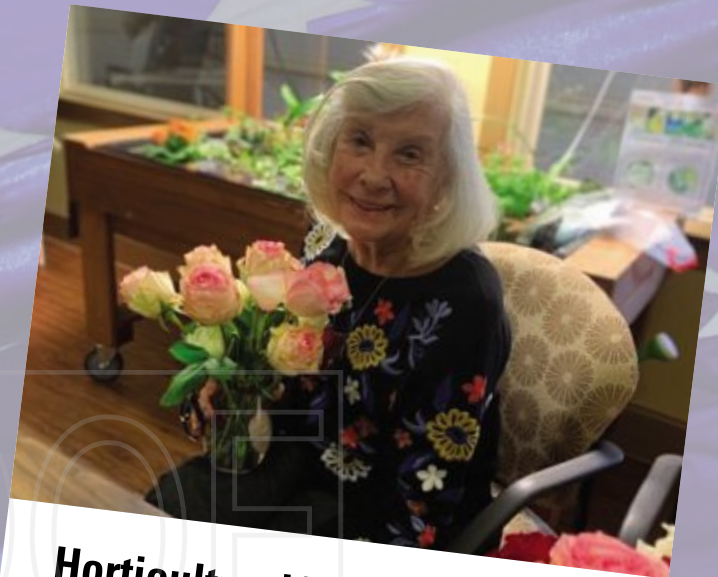

The Landing at Stone Oak embraces all levels of dementia. In doing so, we have a couple who resides with us that may not fit the traditional mold. Couples who have been married for many years, longer than some people live, have pledged to remain together throughout their entire lives. A diagnosis of dementia is included in that promise. Here at The Landing, we have our very own Notebook story. Carroll came to Texas from North Carolina. While in Airforce Basic Training program at Lackland Airforce Base, he met Alice at a military function and fell in love at first sight. They have been married for 66 years now and love each other more as each day passes. Our devoted couple refuses to be separated throughout their life and when his health deteriorated, she moved into The Landing to be with him. As the disease has taken its course, Carroll forgets who Alice is from time to time, but she still visits him and attends activities with him. They dine together, sing together, pray together, and love each other. Carroll thinks of Alice as "his friend" when he does not remember who she is.... Alice is always faithfully here for him just like our devoted care staff is there for the both of them. The Landing does have our own "true" Notebook (the movie) love story.

Peace of Mind for the Entire Family
